

Microsoft Office Apps - Outlook, Excel, Word, PowerPoint, OneNote, Visio, Sway, Teams, more..  OneDrive for Business & Consumer, Skype	End User Compute	Microsoft Office Apps	User Experience & App Virtualization		Foldable phones & Tablets		Media Transfer Protocol		Cloud security		Surface Devices & Accessories		HoloLens 2	Kinect DK Sensor	Microsoft on-premise Offerings		
Store Apps		ReFS	Windows Auto pilot				OCR	Powershell		Certified Chips	Surface Laptop 3	Surface Laptop Go	HoloLens 2 Device	XBox	[** indicates it is either just announced or in Preview]		
Edge Browser		Cortana	Unified Write Filter	Kiosk Mode			USB	Miracast	Bluetooth	OS for Hardware Partner Devices	Surface Book 3	Surface Pro 7 & X	Dynamics 365 Assist	XBox Series X			
'S' Mode		Biometric (Windows Hello)	Bitlocker	Store for Business			UEFI Boot	AllJoyn	Flash Mode	IOT Security	Surface Hub 2S	Surface Studio 2	Development Edition	XBox Series S			
		Windows 10 - x86, x64, ARM64		Windows 10 on Mac		Windows 10X		Windows 10 IoT Core - ARM, x86, x64		Azure Sphere OS		Microsoft Hardware				Immersive VR Headsets	
Windows Store for Consumer / Business	Platform & SDK	Web Apps, Web APIs, Console Apps, Windows Services, Desktop Apps, Microservices, Cloud Native Apps, Gaming, IoT, Machine Learning, etc		ASP.NET Web, Mvc, Web API, SignalR, Blazor		Windows Subsystem for Linux (WSL)	Windows Package Manager	Progressive Web Apps	Enterprise Manageability & security for IoT Devices	Background Apps	Hybrid Apps for Android - Cordova, Xamarin, React Native, Unity		Hybrid Apps for iOS, Android - Cordova, Xamarin, React Native, Unity		Windows UWP Apps & Games	Quantum Development Kit	Direct Machine Learning (DirectML)
Visual Studio Code, Visual Studio 2019, Visual Studio for Mac, Github Codespaces, Xamarin Studio		.NET Framework 4.6.1		Powershell		Windows Containers	Windows PowerToys	Windows Forms	Windows Server Containers	Win32 Console Apps	Win 32 Apps, UWP Apps, Dual Screen Apps		Native Apps for iOS - Objective C, Swift		Xbox Dev Kit	Q#, Python, .NET	Windows Vision Skills
		.NET Core 3.0, ASP.NET Core		IIS 10.0		Windows Mixed Reality	Windows Terminal	WPF	Windows IoT 2019	UWP Apps	Windows 10X SDK Insider Preview		Native Apps for Android - Java, Kotlin				Windows Machine Learning (WinML)
		Mono		Windows Server 2019				UWP	Win32	Windows 10 IoT	Windows 10X Development		Mobile Dev frameworks on Windows		Xbox Games Development	Microsoft Quantum	
		Microsoft Development Platform			Windows Tools & Platform		Windows 10 App Platform		Windows IoT App Platform		Windows 10X Development		Mobile Dev frameworks on Windows		Xbox Games Development	Microsoft Quantum	Windows AI
Microsoft Project, Project Web App, Microsoft Teams, Office Web Apps, Visual Studio 2019	Productivity & Collaboration	Financial Management, Portfolio Analytics & Selection, Issue & Risk Management, Reporting & Business Intelligence		Hybrid for Sharepoint, Metadata planning, eDiscovery, Records Management, Workflows, Onedrive for Sharepoint		Browser based Office Excel, Word, Powerpoint, Onenote functionality, co-authoring documents		Collaboration - Site Mail Boxes, Shared Mail Boxes, Public Folders, Distribution Groups	Data loss prevention (DLP), Information Rights Management, Journaling, Mail flow Rules, S/MIME	Integration Services	Business to Business Messaging : Trading Partner Management, EDI, AS2 & EDIFACT Standards support		Enterprise Application Integration : Orchestration, Messaging & Transformation, Adapters to different Systems		Integrate IBM Host Systems, Programs, Network, Messages and data with Modern Systems		
		Work Management, Demand Management, Schedule Management, Resource Management, Time & Task Management, Program Management		Document Center, Team Sites, Collaboration, Digital Asset Management, Enterprise Search		Integrates with SharePoint Server, Exchange Server		In-place archiving, eDiscovery, Holds, Messaging Records Management (MRM), Auditing, Exchange Server Hybrid			Business Activity Monitoring		ESB Toolkit	Adapters & Accelerators: Adapter Pack, Adapters for Enterprise Applications, Adapters for Fileact, HL7, Rosettanet, SWIFT		Enterprise Single Sign-on	
		Microsoft Project Server 2019		Microsoft Sharepoint Server 2019		Office Online Server		Exchange Server 2019			Biztalk Server 2020						Host Integration Server 2020
SQL Server Management Studio, Azure Data Studio, SSRS Report Builder, Power BI Report Builder, Power BI Mobile App,	Data & AI	Train, Deploy and consume Models	Remote execution from Clients	Integration Services : Tools and Objects to move, copy and Transform Data. Data Quality Service	Analysis Services: Vertipaq Engine, Semantic Data Model for BI, Support for Tabular & Multi Dimensional Models, Data Mining, Power Pivot	Reporting Services : Create, Manage & Deploy Tabular, Matrix, Graphical & Free form Reports	Machine Learning Services : Execute R & Python on Relational Data, Data Exploration & Modeling, Train, Score, Deploy & consume Models	Big Data Cluster: Scalable clusters that run SQL Server, Spark & HDFS Containers on Kubernetes, Combine Relational & Big Data, Virtualize data with Polybase	SQL Server Parallel Data Warehouse (PDW)		Power BI Reports, Paginated Reports, Mobile Reports, KPI		Security	VPN Gateway Solution, on prem access for Android Devices			
		Host on Windows or Linux	R Server						MPP Data Warehouse, Polybase	Cross Device Consumption							
		Python Server		Partner provided Hardware Appliance		Create, Publish & Distribute Reports											
		Machine Learning Server 9.4.7		SQL Server 2019		Host on Windows Server or Linux		Master Data Services: Support for data models for multiple domains, hierarchies, transactions, data versioning, Business Rules		Analytics Platform System 2016 AUS		Power BI Report Server	Microsoft Tunnel **				
Visual Studio Subscriptions	Operations	Microsoft Endpoint Configuration Manager			Orchestrator: Automate jobs and processes in the Data Center with Runbooks, across Platforms, Standardeise best practices for Efficiency, Connect Systems across Vendors		Service Manager: Automate Service Management. Built in processes for Incident & Problem Resolution, Change Control and Asset Life Cycle Management	Service Management Automation	Virtual Machine Manager: Configure, transform and manage Datacenter components, like Virtualization Servers, Networking components, Storage. Manage Hyper-V and VMWare Virtualization Hosts and Clusters	Security	Manage Users, credentials, Access, Policies in an Organization, Privileged Access Management, Identity Life cycle management across heterogenous Systems	Threat & Vulnerability Management, Attack Surface Reduction, Endpoint Detection & Response, Automated investigation & Remediation, Security Score for Devices, Access to Threat Experts					
Docker Desktop for Windows		OS Deployment, App Management, Real time Management, Monitor Infrastructure, Backup & Recovery, Community Hub, Device Compliance. Software updates			Data Protection Manager : Application aware backup, File backup, System backup, Hyper-V Backup. Upload to Disk, Azure or Tape		Operations Manager: Monitoring for Data Center & Cloud, Infrastructure monitoring. Agents and Management Packs for different Services										
		Microsoft Endpoint Manager			System Center 2019										Microsoft Identity Manager 2016 SP1		Microsoft Defender for Endpoint
Visual Studio Code	Compute	Hybrid Capabilities with Azure Storage Migration, File Servers sync, System Insights, Azure Network Adapter, VM Protection			OS for Hyper converged Infrastructure(HCI) Unified Management - Windows Admin Center, Storage Spaces, Enhanced Storage Spaces Direct (S2D), Storage Replica, Data Deduplication, Storage Health & Cluster wide Monitoring, Cluster Sets, Rolling Upgrades, Site aware Failover Clusters, Persistent Memory, Support for Linux & FreeBSD Guests, Hot add of Disk, Memory & Network, Virtual Networking, Software Load Balancer, Virtual Network Peering, Hybrid SDN Gateways, Software Defined Networking (SDN) with IPv4/6			Security	Identity & Access Management : Active Directory Account, Dynamic Access Control, Windows Hello for Business, AD Domain Services, AD Federation Services, AD Rights Management Services, Securing Privileged Access		Software Defined Networking, Shielded Virtual Machines - Windows & Linux, Cluster Hardening whiout NTLM, Credential Guard, Remote Credential Guard. AppLocker, BitLocker, Windows Information Protection	DevOps	Marketplace & Integrations : GitHub Apps, Pre-Receive Hooks		Code Workflow: GitHub Actions, GitHub Packages, Code Reviews, Pull Requests, Protected Branches, Scheduled Reminders, Automatic Code Review Assignment		
IDE - Windows, Mac, Linux		Manage Windows and Linux Containers, Server Core Features on demand, Kubernetes Platform Support, Windows Subsystem for Linux, Hyper-V Isolation, Azure Service Fabric for Windows, PowerShell 5.1 and PowerShell DSC, HPC Pack							Windows Server vNext Preview Builds				Repositories : Public & Private				
Visual Studio Dev Containers									Windows Server 2019								
Marketplace Extensions	Industry Solutions	Small & Mid size companies - Wholesale and Professional Services Industries			Supply Chain Management: Cost Management, Inventory Management, Master Planning, Procurement & Sourcing, Product Information Management, Production Control, Sales & Marketing, Transportation Management, Warehouse Management			DevOps	Repository, Artifacts, Test Plans, Wiki, Reporting		Releases: Manage Release Pipelines, YAML Support, Visualize Progress, Release Gates to Phase Deployment, Deployment Groups, Continuous Deployments, Pull Request based Triggers		Collaboration: Collaborators for Public & Private Repositories, Issues, Project boards, Milestones, Team Discussions, Org & Team Management, Pages and Wikis, Repo Insights				
Develop for On Premise or Azure		Finance, Sales, Purchasing, Business Intelligence, Inventory, Project Management, Planning, Fixed Assets, Human Resources, Relationship Management, manufacturing, Warehouse Management, Service Management			Finance: Accounts Receivables, Accounts Payable, Budgeting, Cash & Bank Management, Cost Accounting, Expense Management, Financial Reporting, Fixed Assets, General Ledger & Financial Reporting, Project Management & Accounting				Builds: Manage Multi stage Build Pipelines, YAML Support, Build Completion Triggers, Build Status Badges		Azure Boards: Hubs for Work Items, Sprint and Queries, Boards and Backlogs, Sprint Planning, Areas & Iterations, Card Annotations		GitHub Enterprise				
One Click Deploy to Azure		Dynamics 365 Business Central			Dynamics 365 Finance & Operations				Azure DevOps Server 2020
